

The DeAnza Auto Tech Program

The DeAnza Auto Tech Program is an excellent career path for some of our mentees! The Program is also community minded and involves students in a food drive every year. If you have further questions about DeAnza Auto Tech, please let your Mentor Program Manager know.

General overview of the program:

Map of the campus:

<https://www.deanza.edu/maps-and-tours/>

It is possible to walk around the campus as they are not yet enforcing any of the parking permits in the lots (true on March 10, 2022 - that may change). You can park by the Auto Tech area (E-1 on the map) and possibly see some of the classes and garages.
